#### May Abandon Kindergarten Schools-Janitors For Policemen.

Col. Gibbons, of the Heating and Ventilating committee of the Board of Education, doubtless believes with Milton that "Good, the more communicated, the more abundant grows." well pleased is he with the good accruing from the committee's trip, taken lately to investigate the merits of the various systems of inside water-closets, established in the schools of neighboring cities, that, despite the exhaustive report, submitted two weeks ago, he continued lauding the investigation, Tuesday night.

Although the members of the Board are keenly alert to the importance of the subject, they nevertheless sidetracked a great bulk of information, Tuesday night, by refusing audience to several agents, who were present to elaborate upon the merits of their goods.

Courtesies shown the committee, while on its trip by the Bartlett company, of Cleveland, were not overlooked by the Colonel. Perhaps it was only for fun that Mr. Slabaugh asked "Why not?" when the Colonel said that he wouldn't ask pay for his time while engaged in the water-closet investigation trip, but the answer was nevertheless interesting.

"Because," replied the Colonel, "the Bartlett company paid expenses."

Whether or not the Bartlett company has a "dead sure thing of it" with the committee caused considerable con jecture among the other members of the Board, and a spirit of uneasines: wrought with the rival agents present when the Colonel's answer to Mr. Slabaugh's question was made.

Even after the meeting was ended, Mr. Slabaugh could not refrain from recalling a similar instance when the successful bidder had paid the expenses of Col. Gibbons and committee.

A number of bids for furnishing water-closets equipment were opened but as they were not figured up, they were referred to the committee to re port at a later time.

THE ROOT OF THE MATTER.

He Cured Himself of Serious Stomach Trouble Down to First Principles.

A man of large affairs in one of our prominent eastern cities by too close attention to business, too little exercise and too many club dinners, finally began to pay nature's tax, levied in the form of chronic stomach trouble; the failure of his digestion brought about a nervous irritability making it impossible to apply himself to his daily business and finally deranging the kidneys and heart.

In his own words he says: "I consulted one physician after another, and each one seemed to understand failed to bring about the return of my former digestion, appetite and vigor For two years I went from pillar to pest, from one sanitarium to another, I gave up smoking, I quit coffee and of beer, but without any marked im-

"Friends had often advised me to try a well known proprietary mediine. Stuart's Dyspepsia Tablets and 1 had often perused the newspaper advertisements of the remedy but never took any stock in advertised medicines nor could believe a fifty-cent patent medicine would touch my case.

"To make a long story short I finally bought a couple of packages at the nearest drug store and took two or three tablets after each meal and occasionally a tablet between meals, when I felt any feeling of nausea o

"I was surprised at the end of the first week to note a marked improvement in my appetite and general health and before the two packages were gone I was certain that Stuart's Dyspepsia Tablets was going to cure com me. I can eat and sleep and enjoy my coffee and cigar and no one would suppose I had ever known the horrors of dyspensia.

"Out of friendly curiosity I wrote to the proprietors of the remedy asking for information as to what the tablets contained and they replied that the principal ingredients were aseptic pepsin (government test) malt diastase and other natural digestives, which ligest food regardless of the condition

of the stomach." The root of the matter is this, tht digestive elements contained in Stuart's Dyspepsia Tablets will digest the food, give the overworked stomach a chance to recuperate and the nerves and whole system receive the nourishment which can only come from food; stimulants and nerve tonics never give real strength, they give a fictitious strength, invariably followed by reaction. Every drop of blood, every from our daily food, and if you can insure its prompt action and complete digestion by the regular use of so good and wholesome a remedy as Stuart's Dyspepsia Tablets, you will have no need of nerve tonics and sanitariums. Although Stuart's Dyspensia Tablets have been in the market only a few years yet probably every druggist in the United States, Canada and
